## **Authorization and Eligibility Requirements**

### **Agricultural Water Management Plan Compliance**

ID4 does not provide agricultural water and is not required to prepare an Agricultural Water Management Plan.

### **Surface Water Diverter Compliance**

ID4 is not considered a Surface Water Diverter. The Agency receives water diverted from various surface water sources by other agencies that would be subject to compliance. That diverted water is subsequently conveyed and sold to the Agency by other agencies as detailed below, with diverting agency underlined.

- 1) State Water Project (SWP) Water is diverted from the Sacramento-San Joaquin Delta (Delta) by the Department of Water Resources (DWR) and delivered by DWR into SWP facilities, principally the California Aqueduct.
- 2) Kern River Water is diverted from the Kern River by the City of Bakersfield or Kern Delta Water District.
- 3) Friant Central Valley Project (CVP) Water including Section 215 is diverted from the San Joaquin River by the United States Bureau of Reclamation USBR at Millerton Lake and delivered via the USBR's Friant-Kern Canal and other facilities.
- 4) Flood waters from other eastside Rivers (Kings, Kaweah, and Tule) that would otherwise flood Tulare Lake bed, are diverted from those rivers by Reclamation District 770 into the Friant-Kern Canal, and follow the same pathways described in item 3).
- 5) Westside CVP Section 215 and other floodwaters entering the Delta are diverted by the USBR at the Delta and delivered via the San Luis Canal\California Aqueduct.
